## FOUR Powerful Libraries in ONE Easy-To-Use Package

**1 Shouts/Chants/Whispers**- Have fun adding over 100 sung announcements, greetings, motivators and cheers to reinforce script copy points with the added power of a vocal group. Perfect for transitions and punctuators or coordinating with visuals. Many great for show thematics.

**2 Production Acapellas, Production Music Beds with Acapella Endings, Production Music Beds**- 54 tracks for a myriad of AV/Video and live presentation/talk applications. This hard hitting package is as easy to use as adding your own narration or live voice over to the special production music beds that already have their own acapella endings ("jingle outs"). For those who are a bit more daring, choose a bed in the clear and "fly-in" your own "aca" from a number of key and tempo matched selections supplied. And of course, use the beds in the clear as you would any good piece of production music.

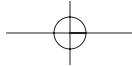

**3 Happy Holidays!** 49 tracks for Thanksgiving, Christmas, New Years, Halloween and Birthdays. Choose beds that are already "jingled out" with pre-selected acapellas, "fly-in" your own key and tempo matched "aca", use a bed in the clear, or use the holiday aca's by themselves for very effective accents or punctuators.

**4 Transitions, Misc. Music and Sound Effects**-Specialty tracks that round out the Momentum™ package for sports, "news" and corporate image applications along with unique sound effects for punctuators or sounders.

The Momentum™ CD has its own 5 digit Tele-Trax™ code. The first 3 digits designate the disc itself while the last 2 digits identifies an individual track. To listen to a particular track on Momentum™, for example, punch in 165 for the disc followed by the track number shown below (do not use index numbers). Remember Tracks 1-9 on any disc require an "0" (e.g. Track 9 is punched "09").
